

SUREvine

SMART, SECURE NETWORKS
OF CONNECTED PEOPLE

SECURE INFORMATION SHARING

Secure, scalable collaboration solutions developed especially for organisations with the most demanding security requirements.

“The best example of intelligent use of social technology for internal collaboration across the whole of the UK government”

IAN WATMORE

Former UK Central Government CIO and Permanent Secretary for the Department for Innovation, Universities and Skills

ENGAGE

Development and integration of secure collaboration software, ensuring those who need to know get to know, even where that information is sensitive.

FOSTER

Thought leadership, industry analysis and technical consultancy around collaboration and secure information sharing.

CARE

Secure collaboration technology deep support gives you unique access to the core platform developers.

Surevine builds secure, scalable collaboration environments for the most security conscious organisations; joining people up and enabling collaboration on their most highly sensitive information.

SOME OF OUR WORK

“SECURE FACEBOOK FOR CYBER THREATS”

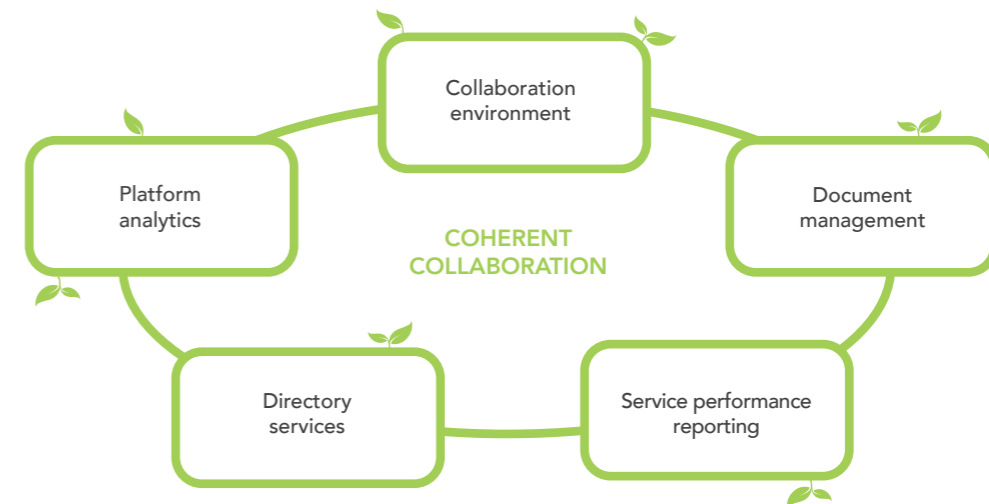

Cyber-security Information Sharing Partnership (CiSP), a secure collaboration environment for cross-sector cyber security information sharing and incident management, delivered for CERT-UK.

SECURE SYSTEMS INTEGRATION AND DEVELOPMENT

A real-time instant messaging and presence service, integrated with a document collaboration environment. Security enhancements enabling the sharing of classified information.

JOINT COLLABORATION PROGRAMME

Meeting the need for “Coherent collaboration” across Government

SOCIAL VOTING

Extensible web-based social voting solution to identify savings and improve Analyst toolsets, by enabling Analysts to vote ‘Trip Advisor style’ on the analytical tools they use on a day-to-day basis. Unpopular tools were identified for retirement, and the savings re-invested in tools that rated highest for delivering results.

Our own smart Research and Development and customer sponsored R&D into collaboration technology delivers constant innovation, building products born out of a genuine user needs.

WHO WE WORK WITH

See our innovation in action and book a FREE workshop, exploring how social technology can enable you to collaborate securely.
