

The logo for Surrevine features the word "SUREVINE" in a bold, sans-serif font. The letters "SURE" are black, while "VINE" is white. A small green leaf icon is positioned at the end of the word, partially overlapping the letter "E".

SUREVINE

CONNECTING PEOPLE
THROUGH SMART, SECURE NETWORKS

SMART, SECURE NETWORKS OF CONNECTED PEOPLE

Developed especially for the most security conscious organisations; joining people up and enabling collaboration on their most sensitive information.

FULL LIFECYCLE APPROACH

“The best example of intelligent use of social technology for internal collaboration across the whole of the UK government”

IAN WATMORE

Former UK Central Government CIO and Permanent Secretary for the Department for Innovation, Universities of Skills

Secure solutions you can trust. Bringing the intuitive and engaging user experience you take for granted on the Internet to form the core of your digital workplace.

UNIFIED COMMS

Secure approaches to video, voice and instant messaging that enforce your information sharing rules whilst actively encouraging participation.

PEOPLE-CENTRIC

People are at the heart of everything we build. We know that it's your people that give you a competitive advantage, and we know how to build solutions that bring together those smart minds and enable them to excel.

KNOWLEDGE HUB

Knowledge and skills sharing platforms you can trust; helping to make your 'learning organisation' a reality and surfacing untapped organisational intelligence.

IDEATION

Secure, collaborative approaches to ideas platforms; connecting and managing all of your innovation initiatives, collaboration on ideas and measurements of your success.

USER DRIVEN DESIGN

User needs driven approach, supported by our deep domain expertise in collaboration, communication and co-creation which ensures that we are truly focussed on understanding and solving your users' problems.

CROSS-BOUNDARY WORKING

Joined up people and organisations across smart and secure gateways that enforces your organisations information sharing rules; galvanising networks you can trust and confide in.

DIGITAL WORKPLACE

Secure approaches to content collaboration that are flexible and extensible, enabling you to natively support the most challenging security constraints.

ENTERPRISE SOCIAL

Secure social networks you can trust; bringing the intuitive and engaging user experience you take for granted on the Internet, to join people up securely within your organisation.

AGILE. OPEN. HONEST.

Surevine developers follow the Agile methodology, and adhere to the Digital Design Standards set by UK Government. We work in the Open; from the projects we deliver (open source, open standards) to the way we engage with our customers.

Our own smart Research and Development and customer sponsored R&D into collaboration technology delivers constant innovation, building products born out of genuine user needs

WHO WE WORK WITH

HOW TO BUY

GCloud for cloud based services.
